Egg-Based Binder

Pet Nutrition

OvaBind® 70

Egg-Based Binder

Premium binding and cost-efficiency

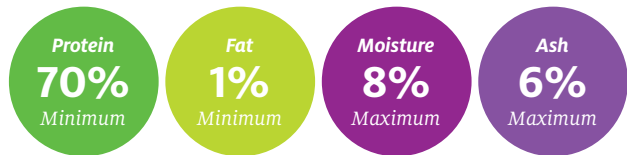

Egg protein sets the benchmark for quality in pet-food protein ingredients. Now, OvaBind® 70 delivers premium functional binding in high-meat wet foods, dry foods, and treats—and lower cost-in-use. In wet foods, OvaBind® 70 is the ideal binder for products based on chicken, beef, or liver. In dry foods, it's the cost-effective binder of choice for grain-free (low-starch) kibble that contains up to 60% fresh meat. Get high-protein, low-ash nutrition, premium binding performance, and a better finished product, with OvaBind® 70.

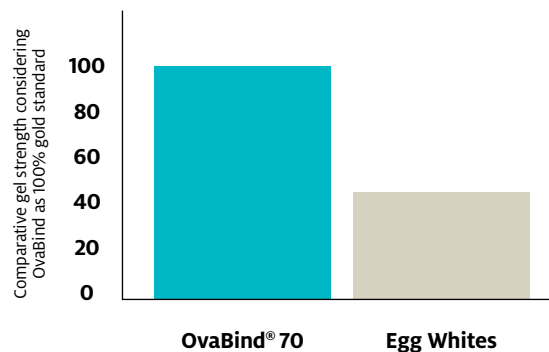

Benefits:

- Raw gel strength exceeds egg whites**
 - Easy to formulate
 - Easy to use
 - Low weep
 - Predictable results
- 70% egg protein minimum
 - Less than 6% ash
 - Low-fat: better control over fat addition in your process
- Shelf-stable
- Pasteurized

Specifications:

Average gel strength of OvaBind® 70 compared to commercial egg whites

** Performance will depend on ingredient matrix. Required use rates will vary depending on the formulation, process type, equipment used, and desired performance targets.
