Ovalin™ 80Y

Defatted Egg Yolk

What's an egg yolk without the fat?

Plenty—especially when you need to boost protein in your formula without increasing levels of fat (and ash). Ovalin 80Y defatted egg yolk contains natural, nutritious yolk protein with the fat almost completely removed.

Egg protein quality is the standard for the pet-food industry, and Ovalin 80Y delivers a balanced amino-acid profile, as well. Such a high-quality ingredient can help you formulate premium pet diets, achieving optimal levels of essential amino acids.

Benefits:

- Concentrated, highly available essential amino acids
- Low in crude fat and crude ash
- Easily incorporated, for optimal formulating flexibility
- Circular protein ingredient
