Chicken Protein

Premium Dried Chicken

See what real chicken can do for your products, your operation, and your label.

Nuvin™ offers a broad range of chicken protein products made from high-quality raw materials, including human-edible-grade ingredients. Our dried chicken powders provide a consistent nutrient profile with better digestibility and stability. They also add handling convenience while reducing contamination between wet and dry areas, improving yields, and reducing labor, waste, and energy use.

Benefits:

- Naturally complete chicken protein
- Consumer appeal in a label-friendly main ingredient
- Excellent amino-acid profile
- Gently cooked for better digestibility and stability
- Shelf-stable dried chicken powders
- More convenient storage and handling than fresh or frozen
- Supply-chain efficiency—stop paying to ship water

Treatment mean values from chick protein efficiency growth assay / 70g of protein per 100g of chicken powder
